Making sure your vehicle is safe to drive is an important part of being a great driver. Pass the Annual MultiPoint check to make sure your vehicle meets essential road safety standards.

The Annual MultiPoint check is a set of tests done to assess the roadworthiness of your vehicle's various safety functions, including: tyres, windscreen wipers, lights, indicators, hazards, seatbelts, steering, hooter and shocks. If you have a motorcycle, we'll also check its general condition and for any missing parts. The check also makes sure that your vehicle's service history is up to date.

The Annual MultiPoint check costs R95 per vehicle. If you failed a check, it can be redone at no cost within 30 days; thereafter a re-check will cost a further R95.

When you go for your Annual MultiPoint check, you will need to take the Vitality Drive card, identity document or driving licence of the insured vehicle's primary driver with you. You will have to fill the details of the primary driver in on the Annual MultiPoint check form. If you are the primary driver of more than one car, you only need to take one car to do the check.

By taking your vehicle to Tiger Wheel & Tyre for an Annual MultiPoint check, not only will you make sure it's safer to drive, you'll also earn up to 300 Vitality Drive points every month for 12 months and boost your fuel cash back percentage. You can complete your vehicle pre-inspection at the same time as completing the check.
